

"Pioneers of creative engineering solutions"

We are proudly

- ✓ 100% Black Owned
- ✓ Youth Owned
- ✓ South African
- ✓ Established in 2016

COMMITMENT
We keep our promises no matter how difficult the circumstances might be.

The persistent electricity power challenges in the African continent, South Africa in particular has resulted in a significant challenge for utilities, industries, mining houses and the general public. Considering this challenge, the backlog in electrical infrastructure maintenance and the manufacturing gap in the African continent.

Steady Creative Creations as an inter-disciplinary engineering firm has expertise that position the company as a one stop shop of electrical engineering solutions. Our primary focus is in manufacturing and supply of electrical engineering equipment. Due to our extensive experience across the engineering discipline we have capabilities to offer the following complementary services:

- Primary and Secondary Designs of HV, MV and LV Electrical Systems.
- Construction of HV, MV and LV Electrical Infrastructure.
- Maintenance of HV, MV and LV Electrical Infrastructure.

Incorporated in South Africa , and with our current footprint in the continent, the aim is to expand our offering across the African continent.
